Website - [JacobGarcilazo.dev](#)

Full-stack software engineer with tech residency experience using Flask, SQL, and Auth0. Skilled in REST API development, React integration, and agile workflows. Collaborative, organized, and detail-oriented with strong Git and testing practices.

---

## SKILLS

**Languages:** JavaScript, HTML5, CSS3, Python, SQL, Java

**Frameworks/Libraries:** React, Flask

**Databases:** MySQL, PostgreSQL, SQLite

**Tools/Dev Ops:** Git, Swagger, Postman, JWT/Auth0

**Certifications:** Coding Temple - Full Stack Development

**Other:** Fluent in Spanish; Experienced with OAuth2, Experienced with AWS Cognito

---

## PROJECTS

### Hawkeye AI Early Weapons Detection System - Software Engineer

*Technologies: HTML, CSS, JavaScript, React, Flask, PostgreSQL, Node.js, JSON, Figma*

- Integrated Auth0-based authentication in a production-ready Flask application using JWTs
- Designed and tested API endpoints for user registration, login, and data access following security best practices
- Wrote Swagger documentation and set up CI processes for testing and deployment readiness
- Programmed CSS, HTML and JavaScript to design layout for homepage, about section, dashboard, and sign-in/sign-up
- Collaborated with front-end devs using Git feature branches and code review workflow

## EXPERIENCE

### Backend Developer - Coding Temple | Remote

04/2025 - Present

*Technologies: Python, Javascript, Java, HTML, CSS, React, Flask, SQL, Node.js, JSON, fill in technologies here*

- Collaborated with a team of developers to architect and implement a full-featured admin dashboard for internal course management using Flask for the backend and React for the frontend
- Designed and optimized RESTful API endpoints for user authentication, role-based access, and CRUD operations across multiple database tables
- Utilized Git workflows and Agile sprints to coordinate with frontend and backend developers in delivering scalable features under tight deadlines
- Demonstrated strong cross-functional communication and adaptability in fast-paced environments

### Software Engineer Apprentice - Coding Temple | Remote

01/2023 - 03/2025

- Built full-stack applications as part of intensive coding bootcamp projects using Flask, React, PostgreSQL, and REST APIs
- Participated in daily stand-ups, pair programming, and code reviews—gaining real-world experience with Agile development
- Grew strong collaboration and teamwork skills by working closely with peers on complex group

### Lead Sales Representative - Verizon Wireless | Riverside, CA

04/2020 - 12/2022

- Consistently ranked in the top 200 sales representatives nationwide through a deep understanding of both products and customer needs
- Provided technical consultations and device support to a wide range of customers, leveraging strong tech fluency to demystify complex solutions
- Earned multiple internal recognitions for outstanding service delivery, conflict resolution, and team collaboration
- Excelled in customer relationship building empathetic communication and active listening

## EDUCATION

**Coding Temple, Certificate - Software Engineering**

**San Joaquin Valley College, A.A. Information Technology**
